EDUCATION

KFUEIT - Bachelors of Science in Cyber Security

RYK, Pakistan
2021 - 2025

WORK EXPERIENCE

Wazuh Ambassador @Wazuh

California,US
12/04/26 - Current

- Selected as an official Wazuh Ambassador representing Pakistan globally, contributing to open-source.
- Contributing to the Wazuh community through technical content, labs, and SOC use cases.
- Promoting Wazuh SIEM adoption and best practices.

Ebryx(Pvt.) Ltd @Junior SOC Engineer

Lahore, Pakistan
09/02/26 - 14/08/26

- Monitored and investigated endpoint, network, and cloud security alerts during SOC operations.
- Analyzed EDR/MDR alerts using CrowdStrike Falcon and VIPRE.
- Performed alert triage, log analysis, and incident investigation using ELK Stack, Wazuh, and Microsoft Sentinel.
- Assigned, documented, and closed security alerts with appropriate verdicts and summaries.
- Collaborated with L2/L3 SOC analysts and followed the complete Ebryx SOC training roadmap.

WazuGuardix @Cyber Security Training Instructor

Lahore, Pakistan
05/10/25 - 10/08/26

- Delivered hands-on training on Wazuh SIEM/XDR for Windows and Linux security monitoring.
- Trained students to implement FIM, Windows Defender integration, SSH brute-force, and n8n-based security automation.
- Guided students in integrating VirusTotal API, MISP, and honeypots for threat intelligence and IOC enrichment.
- Conducted practical sessions on Ansible for automated Wazuh deployment and infrastructure management.
- Mentored students in creating custom Wazuh detection rules aligned with NIST and CIS security frameworks.
- Taught log analysis, event correlation, and incident triage through hands-on SOC labs.

ICDFA @Ethical Hacking Training

Nigera(Remote)
12/11/25 - Current

- Applied digital forensics techniques including disk imaging, memory analysis, and file carving.
- Conducted penetration testing using Nmap, Metasploit, and Burp Suite.
- Analyzed malware and artifacts to identify attack vectors, persistence, and IOCs.
- Documented forensic findings, incident reports, and chain of custody.

NETS International Group @SOC Analyst Trainee

Islamabad, Pakistan
27/06/24 - 04/09/24

- Managed LimaCharlie EDR/XDR operations for alert investigation, endpoint isolation, and threat containment.
- Monitored QRadar SIEM/SOAR and Snort IDS to detect threats, analyze events, and improve detection coverage.
- Analyzed IOCs/TTPs and developed QRadar dashboards and reports to strengthen SOC visibility and response.

ITSolera Pvt Ltd @SOC Analyst Inter

Islamabad, Pakistan
03/06/24 - 10/09/24

- Integrated Wazuh SIEM with pfSense for automated threat-based IP blocking and network protection.
- Implemented FIM, Windows Defender, custom Wazuh rules, and firewall policies to detect and prevent threats.
- Performed Wazuh alert triage, log analysis, and incident escalation supporting SOC runbooks and response procedures.

CERTIFICATIONS

- ISC2 Certified in Cybersecurity (CC) - 2026
- ISO/IEC 27001:2022 Lead Implementer
- ISO/IEC 27001:2022 Information Security Associate
- ISC2 Security Principles
- Azure Sentinel Analyst
- Cyber Threat Intelligence 101

PROJECTS

- **Automated SOC Lab:** Integrated Wazuh, MISP, VirusTotal, n8n, Shuffle SOAR, and AbuseIPDB for automated threat enrichment, SSH brute force detection, and response.
- **Threat Detection Lab:** Integrated Wazuh, Windows Defender, and Sysmon with FIM, PowerShell monitoring, and custom rules for ransomware, USB, and web shell detection.
- **Endpoint Security Monitoring:** Implemented Wazuh, Windows Defender, and Sysmon for centralized endpoint monitoring, FIM, PowerShell monitoring, and threat detection across Windows, Linux, and Docker.
- **Network Security & Active Response Lab:** Automated RDP/SSH brute-force IP blocking using Wazuh Active Response and integrated pfSense/Fortinet for network monitoring and threat detection.
- **Cloud Security Lab:** Integrated AWS, Azure, and Microsoft 365 with Wazuh for centralized cloud monitoring, threat detection.
- **Android Malware Detection Using Multi-Model Fusion:** Developed an ML-based Android malware detection system using Logistic Regression, Decision Tree, KNN, feature extraction, and model fusion.

ADDITIONAL

Technical Skills:

- SIEM (ELK Stack, Wazuh, Microsoft Sentinel) , Cloud (AWS, Azure)
- EDR/MDR (CrowdStrike , VIPRE) , SOAR (n8n, Shuffle)
- IDS/IPS (Suricata, Snort) ,Firewall (pfSense), Threat Intelligence (VirusTotal, AbuseIPDB, MISP)
- Sysmon, Window Defender , Wireshark , Professional Documentation

Languages:

- English, Urdu, Saraiki, Punjabi
